### **Reference datum**

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

### **Data Reference and source**

- Agreement boundary compiled by National Native Title Tribunal or sourced from the Department Natural Resources and Mines (Qld).
- Cadastral data sourced from Department of Natural Resources and Mines, Qld (August 2017).
- Watercourses are wherever possible based on Cadastre data sourced from Department of Natural Resources and Mines (Qld) August 2013; else interpreted from 1:250k Topographic vector data © Commonwealth of Australia (Geoscience Australia) 2003.
- Drainage basins wherever possible are based on cadastral data else Drainage Sub-Basin data supplied by Department of Natural Resources and Mines, (20 Feb 2009).

### **Use of Coordinates**

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.
