Notes:

The External Boundary includes the following Islands:

- Curtis Island
- Balaclava Island
- Facing Island

To avoid any doubt the External Boundary includes the following areas considered to be landward of the High Water Mark commonly known as:

- Hummock Hill Island
- Middle Island
- Wild Cattle Island

Data Reference and source

- External boundary based on data sourced from Dept. of Natural Resources and Mines, Qld as at August 2017.
- Cadastral data sourced from Dept. of Natural Resources and Mines, Qld (1 July 2014).
- High Water Mark as defined in the Land Act.
- Local Government Authority boundaries sourced from Dept. of Natural Resources and Mines, Qld (August 2014).
- Catchment boundaries based on Drainage Basin Sub-Area Queensland data sourced from Dept. of Natural Resources and Mines, Qld (Sept 2011).
- Rivers and creeks based, where possible on cadastral data sourced from Dept. of Natural Resources and Mines, Qld. Elsewhere, rivers and creeks based on 1:250,000 topographic vector data © Commonwealth of Australia (Geoscience Australia) 2008.

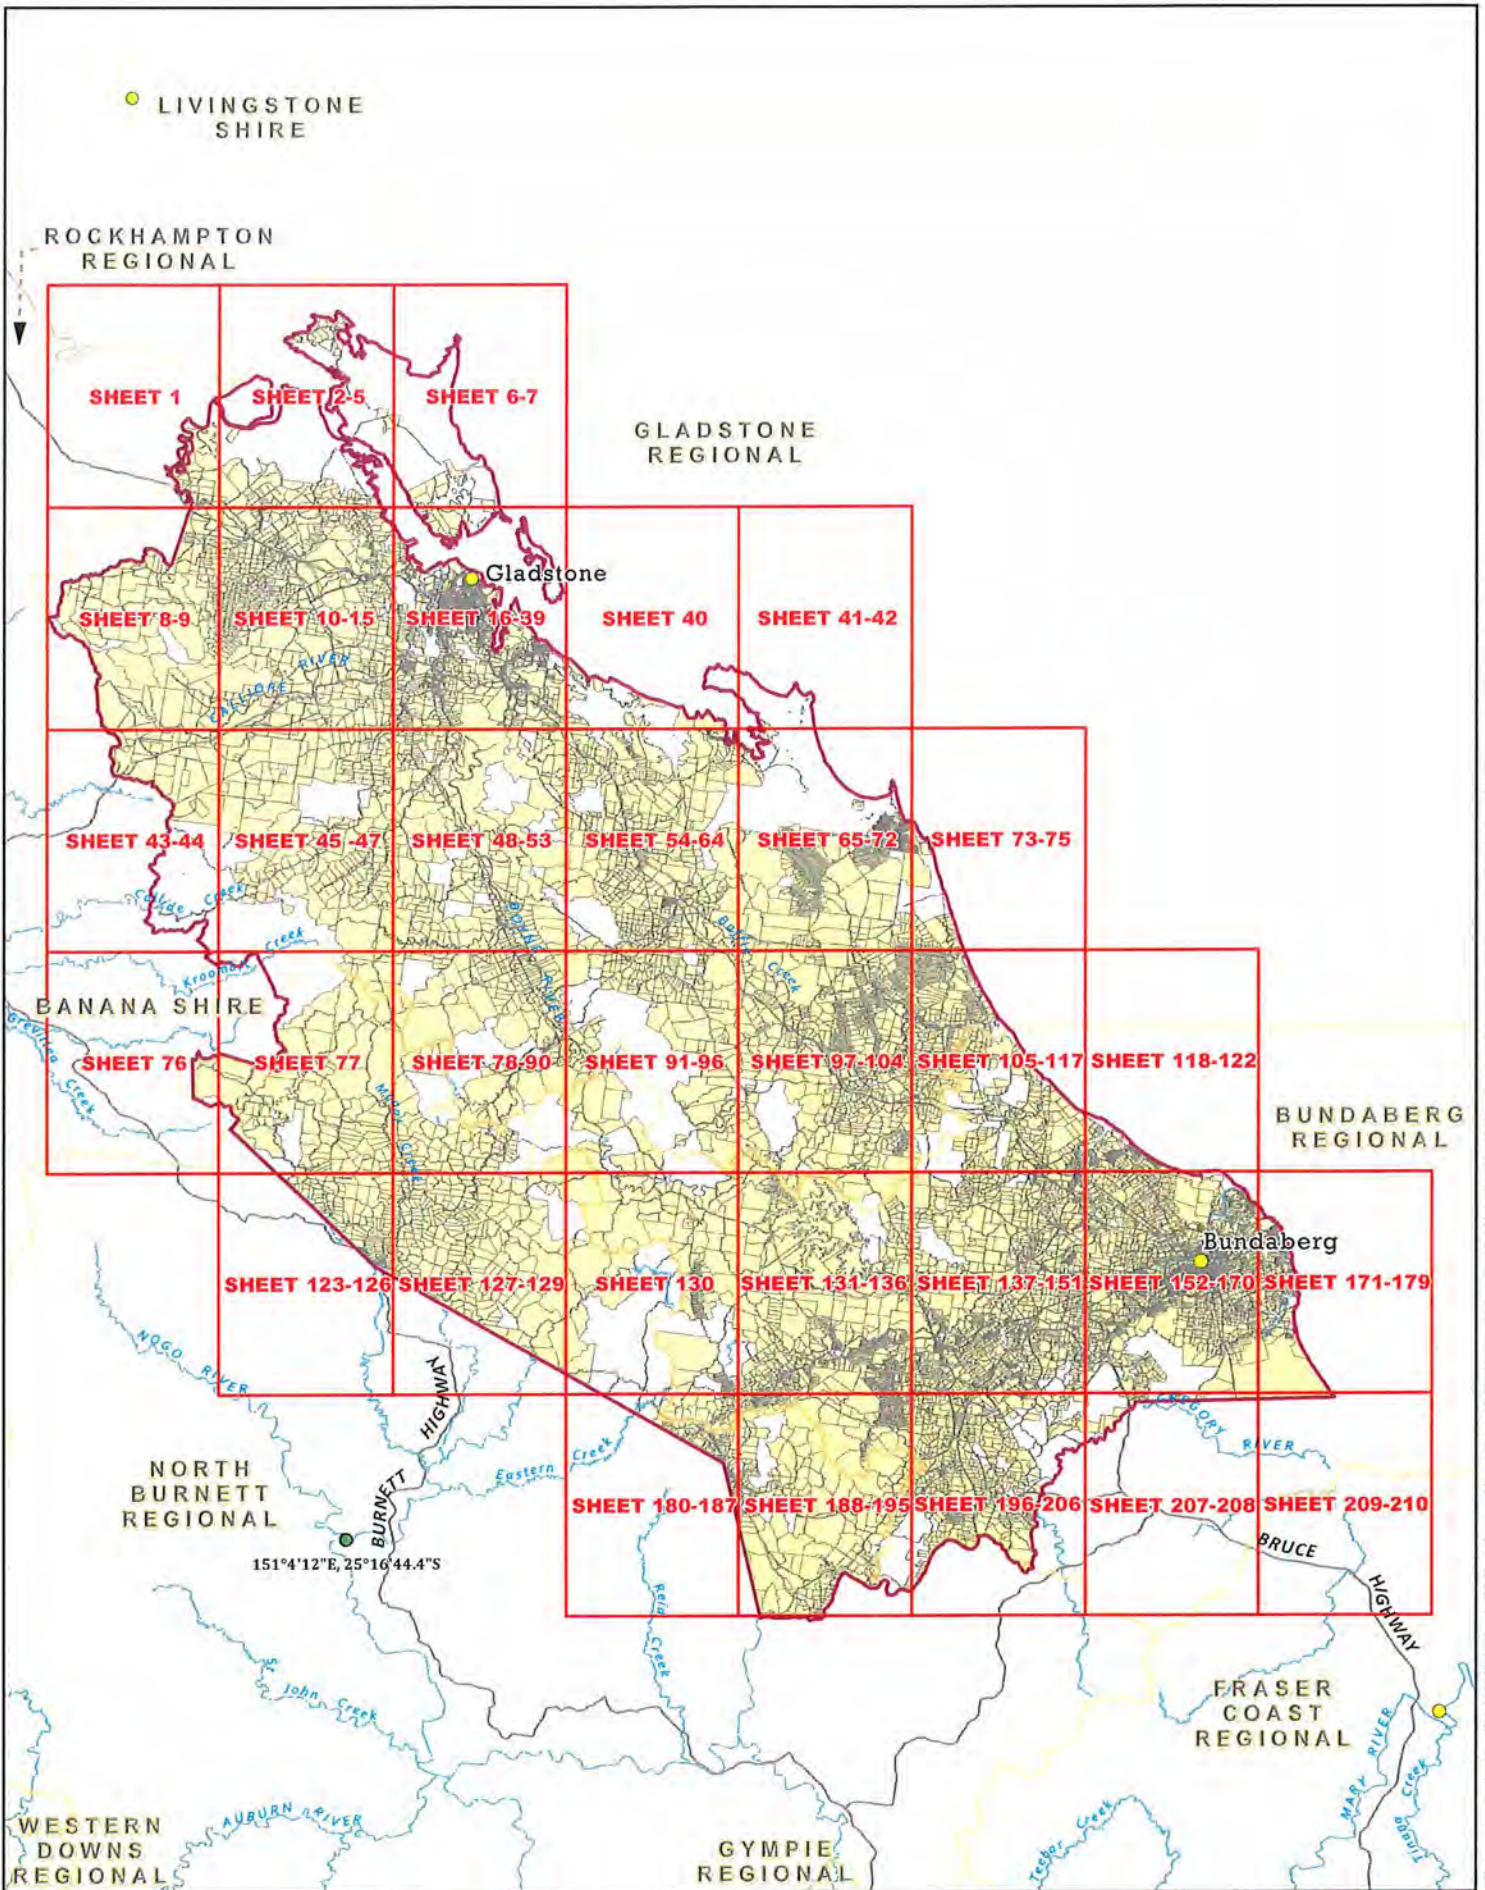

Reference datum

Geographical coordinates are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

Use of Coordinates

- Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.
- Prepared by Queensland South Native Title Services (23 August 2017).
