### Description of the area covered by the agreement

Schedule 1 of the agreement describes the agreement area.  
the ILUA area:

- (a) means the land and waters within the external boundaries of the Claimant Applications, lodged in the Federal Court and allocated numbers WAD340/10 (NNTT number WC10/16) and WAD216/10 (NNTT number WC10/11) accepted for registration on 10 December 2010 and 17 [September] 2010 respectively as shown on the map in Schedule 2; but
- (b) excludes any land and waters within the external boundaries that are not the subject of either Claimant Application.

[A map of the agreement area is contained in Schedule 2 of the agreement. A copy of Schedule 1 and 2 are attached to this register extract.]

The following general description of the agreement area has been provided by the National Native Title Tribunal to assist people to understand the location of the agreement area. It is provided for information only and should not be considered part of the Register of ILUAs: The agreement area covers about 10,140 sq km and is located north of the Ashburton River and south of Tom Price in the vicinity of Paraburdoo.]

17.3(d) The confidentiality provisions in this document survive the termination of this document.

### Statements of the kind mentioned in ss. 24EB(1) or 24EBA(1) or (4)

7.1 (a) The Native Title Applicants agree with, consent to and support and continue to agree with, consent to and support the Existing Operations including all RTIO Existing Titles .

(b) Subject to clause 29.11 of the Participation Agreement and clause 7.1(c), the Native Title Applicants agree with, consent to and support, and continue to agree with, consent to and support:

(i) the doing of every Future Act;

(ii) the Grant or Modification of every:

(A) Approval; and

(B) Interest; and

(iii) the Modification of every RTIO Existing Title,  
that is for an Agreed Purpose.

(c) Clause 7.1(b) does not apply to the extent an act or thing is done or to be done within or in relation to the Special Cultural Significance Area.

7.2 Without limiting clause 7.1, the Native Title Applicants agree with, consent to and support and continue to agree with, consent to and support the reliance on and the conduct by RTIO Entities of all activities required, permitted or contemplated by each Agreed Act, including as Modified.

7.5 (a) An "Agreed Purpose" means any of the following from time to time:

(i) the Existing Operations;

(ii) any Modification of any of the things comprising those operations provided they remain part of RTIO's Pilbara Iron Ore Business; and

(iii) the planning, development, operation and expansion, further expansion and decommissioning of any aspect of RTIO's Pilbara Iron Ore Business from time to time, including new iron ore mines, borrow and ballast pits and necessary supporting infrastructure.

(b) Without limiting clause 7.5(a), the development, operation or expansion of each of the following is deemed to be an "Agreed Purpose" if a Substantial Reason for its development, operation or expansion is for RTIO's Pilbara Iron Ore Business:

(i) new power, water, rail and road infrastructure and associated infrastructure and works within the ILUA Area such as:

(A) power generation facilities to produce electricity;

(B) substations, power lines and switching yards;

(C) communication facilities and infrastructure;

(D) gas and water pipelines, pumping stations and borefields;

(E) land fill sites;

- (F) water storage dams and tanks;
- (G) borrow pits and quarries;
- (H) access and haulage roads and tracks;
- (I) airports and related infrastructure;
- (J) rail infrastructure and works including multi-tracking of railways, sidings, marshalling yards and loops, maintenance and storage facilities, deviation of railways, rail corridors and movement of rail infrastructure, and associated buildings and works;
- (K) buffer zones, car parks and landscaped areas;
- (L) administrative offices and other buildings; and
- (M) associated buildings and works;
- (ii) iron ore processing infrastructure and works including:
  - (A) stockpiles;
  - (B) crushing and screening plants;
  - (C) conveyors;
  - (D) facilities for the blending of iron ore; and
  - (E) associated buildings and works;
- (iii) construction camps; and
- (iv) town infrastructure and accommodation infrastructure within the ILUA Area, including:
  - (A) dwellings;
  - (B) commercial facilities;
  - (C) open space and recreational facilities;
  - (D) dining facilities;
  - (E) communal facilities;
  - (F) roads;
  - (G) car parks;
  - (H) landfill sites;
  - (I) water treatment facilities; and
  - (J) associated buildings and works.

(c) In this clause 7.5, "Substantial Reason" means, subject to clause 7.5(d), on the balance of probabilities, it would have been unlikely to be developed, constructed or operated were it not required for RTIO's Pilbara Iron Ore Business, even though it may be used for other purposes.

(d) Where the Agreed Purpose is for town infrastructure comprising dwellings or commercial facilities within a town:

(i) if:

- (A) the dwellings or commercial facilities are being established in accordance with a Government Agreement or a requirement or right created in accordance with a Government Agreement that requires that not more than 20% of the total occupied, or to be occupied, dwellings or commercial facilities to be offered for sale or lease to the general public; and
- (B) each of the dwellings or commercial facilities that are not required to be offered for sale or lease to the general public would have been unlikely to be developed or constructed were it not required for RTIO's Pilbara Iron Ore Business,

then each of the dwellings or commercial facilities will be an Agreed Purpose; and

(ii) where clause 7.5(d)(i) does not apply, it will only be an Agreed Purpose if and insofar as each of the dwellings or commercial facilities would have been unlikely to be developed or constructed were it not required for RTIO's Pilbara Iron Ore Business.

For example:

- a subdivision done under a Government Agreement may be for an Agreed Purpose in circumstances where the land will be used for dwellings or commercial facilities in a town as part of RTIO's Pilbara Iron Ore Business, and that will be the case even if not more than 20% of the lots are required to be released to the general public.
- where the same release is not being done under a Government Agreement, or where it is being done under a Government Agreement that requires more than 20% of the lots to be released to the general public, only the individual lots that are required for RTIO's Pilbara Iron Ore Business will be an Agreed Purpose. This is the case even if RTIO's Pilbara Iron Ore

Business is a Substantial Reason for the subdivision when viewed as a whole.

10.4 For the purposes of section 24EB(1) of the Native Title Act, the parties consent to all Agreed Acts to the extent they involve Future Acts without conditions but in accordance with this document.

10.6 The process set out in Subdivision P of Division 3 of Part 2 of the Native Title Act, known as the "right to negotiate" process, is not intended to apply to any Agreed Act.

Definitions:

"Agreed Act" refers to a thing or things agreed to, consented to or supported under clause 7.1 and clause 7.2.

"Approval" means an authorisation, licence, permit, approval, certificate, consent, direction or notice inclusive of any Modification, and includes an approval from a Minister, Government Agency or other competent authority, for example the approval of proposals under a Government Agreement.

"Interest" means any:

- (a) legal or equitable interest in land or waters;
- (b) right to occupy, use or traverse land or waters;;
- (c) right to mine, quarry, extract or explore for minerals or water;
- (d) easement, charge, power or licence over or in connection with land or waters; or
- (e) authorisation, permit or licence from any Government Agency, whether Granted before on or after the Commencement Date.
