

## Schedule 1

### Ewamian Protected Areas ILUA

#### Area Description

The ILUA Area covers all of the land and waters subject to:

- Lot 3 on CP852261 (Mount Rosey Resources Reserve);
- That part of Lot 1004 on NPW962 (Blackbraes Resources Reserve) (formerly Lot 1 on LH6) within the external boundary of the QUD6009/99 Ewamian People #2 (QC99/13) native title determination application as accepted for registration on 9 July 2002, being that part within an area defined as:

Commencing at a point on the eastern boundary of Lot 1004 on NPW962 at Latitude 19.429145° South; then westerly and northerly passing through the following coordinate points:

Longitude ° East	Latitude ° South
144.138585	19.428342
144.136087	19.407989

Then westerly, to a point on the western boundary of Lot 1004 on NPW962 at Latitude 19.407541° South; then north westerly, north easterly, south easterly and southerly along the boundary of Lot 1004 on NPW962 (Blackbraes Resources Reserve) (formerly Lot 1 on LH6) back to the commencement point.

- That part of Lot 26 on NPW874 (Undara Volcanic National Park) within the external boundary of the QUD6018/01 Ewamian People #3 (QC01/16) native title determination application as accepted for registration on 27 June 2002 and excluding areas formerly described as Lot 1 on Plan TE18 and Lot 1 on Plan TE25.

#### Note

##### Data Reference and source

- Agreement boundary data compiled by National Native Title Tribunal based on data sourced from the Department of Natural Resources and Mines (Qld) (February 2012).
- Cadastral data sourced from the Department of Natural Resources and Mines (Qld) (February 2012).
- Native title determination application QUD6009/99 Ewamian People #2 (QC99/13) as accepted for registration on 09 July 2002.

- Native title determination application QUD6018/01 Ewamian People #3 (QC01/16) as accepted for registration on 27 June 2002.

### **Reference datum**

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time

### **Use of Coordinates**

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (7 April 2014).
