Reference datum

Geographical coordinates have been provided by the NNTT Geospatial Unit and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

Data Reference and source

- Amended QUD6244/98 Birri People (QC98/12) boundary data compiled by National Native Title Tribunal.
- Abutting application boundary data compiled by National Native Title Tribunal based on data sourced from the Department of Natural Resources, Mines & Water (Qld).
- Cadastre and watercourse data sourced from Department of Natural Resources, Mines & Water, Qld (Dec 2003).
- Parts of the centreline of the Burdekin River and Euri Creek digitised from 1:100,000 topographic image data supplied by Geoimage Pty Ltd under licence from Geoscience Australia (© Commonwealth of Australia).

Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.
