Use of Coordinates:

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Part 2 – Excluded Areas

(1) The following areas within the external boundary described in Part 1 of this Schedule 1, being land and waters where native title has been completely extinguished, are not included in the Part A Determination Area:

(a) Reserves
